

EPIC™ 810-ECA

External Cordless Adapter

PLUG & PLAY PHONE SYSTEM

The External Cordless Adapter adds an exciting capability to the Epic System. It allows you to connect any standard single-line cordless phone to the system, and it turns that single-line phone into a multi-line extension of the system. You may enjoy many system features, such as make and receive calls on any of the lines, transfer calls, intercom and page the other stations.

The External Cordless Adapter offers the following features:

- *Make and answer calls on any line*
- *Place calls on hold*
- *Conference two outside lines*
- *Make and answer intercom calls*
- *Make pages*
- *Transfer calls to another station and receive transferred calls. If your cordless phone has a caller ID display, it will indicate which line an incoming call is ringing on.*
- *If you subscribe to caller ID and your cordless phone has a caller ID display, it will display the caller ID information.*
- *If you are engaged in a call and a call is ringing on another line, you will hear one, two, three, or four beeps in your ear to indicate which line the call is coming in on.*
