EPIC™

The Expandable Plug and Play Phone System

VMAIL SERIES

Multi-line phones designed to enhance Telephone Company network services

EPIC Is More Than A Phone

It's a total system that provides small businesses with tremendous capabilities that, until now, have only been available in larger, complex systems costing much more.

With An EPIC System, You Can Enjoy...

Up to 4 lines and 16 Stations
Access up to 4 lines, and up to 16 extensions can share the same Epic system.

Plug & Play Design
With Epic, there's no complicated wiring or central controller unit; the brains are built into each phone. Plug your Epic phones into your wall outlets and jacks and you're ready to go!

Full-featured Intercom
Call any other extension in your Epic system with ease. You can even answer intercom calls "hands-free" via speaker-phone.
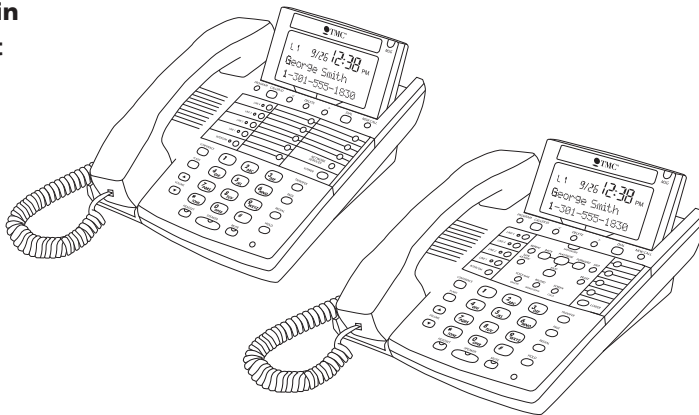

Voice Mail and Auto Attendant
The EV4500 adds built-in voice mail and auto attendant to the Epic system, for a truly professional and efficient business.

## Create The EPIC System That's Right For You By Choosing From...

Phones with or without built-in voice mail and auto attendant
There are two Epic phone models available. The **ET4300,** and the **EV4500** which adds built-in voice mail and auto attendant. Both models are fully compatible, so you can build a system tailored to your needs and budget.
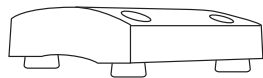

Add-On Feature Modules
Each of these optional accessories plugs easily into your Epic System and adds a unique capability.

Music on Hold
Allows you to connect a radio or tape player to the system.

Door Intercom
Allows the addition of a door intercom speaker and/or magnetic door lock.

External Paging
Allows connection of an external amplifier and speaker for paging from any phone.

External Cordless Adapter
Lets you connect any single-line cordless phone to the system, access any of the lines and page any extensions.

EPIC™

The ET4300 offers all of these great business features:

Toll Restriction
Restrict specific numbers and prevent unauthorized long distance calls.

Busy Lamp Field
See at a glance what other extensions are in use.

Call Privacy On/Off
Prevents others from joining or listening to your conversation unless you conference them into the call.

Off Hook Voice Announce
Allows discrete intercom announcements to others without interrupting their call in progress.

...and many more including
High Quality Speakerphone, Line Reserve, Do Not Disturb, Exclusive Hold, Headset Compatibility, Centrex Compatibility, Distinctive Ringing, Off Hook Ringing, Conference, Transfer, and Battery Backup.

Two Year Warranty

The EV4500 includes all the ET4300 features plus the following voice mail and auto attendant features:

Built-in Auto Attendant
Answers incoming calls and directs them to other telephones in the system.

Eight Selectable Greetings
You can set the auto attendant to give up to eight different greetings according to the user's input. This feature is useful for giving specific recorded information to callers, such as hours of operation or directions.

Transfer Direct to Voice Mail
Allows callers to leave messages directly in a person's voice mail, without first ringing the extension.

Digital Message Recording
30 minute total messages length

Night Message Greeting
A night message can be set to play during specific hours.

Line Specific Greetings
You can assign separate greetings to different lines, which is useful for personal and business lines, or for two separate businesses that share a system.

Screen Calls
If you wish you may listen as callers are leaving you a message. At any time you can pick up the call if you wish.

Variable Speed Message Playback
You may increase or decrease the speed of the message playback, without altering the voice pitch.

Record Memo/Conversation
With the press of this button, you can record a memo or your current telephone conversation. Your recording will be saved along with the other messages.

Centrex Auto Attendant
The EV4500 has a built-in Centrex Auto Attendant, which makes it ideal for everything from the small business to the large Enterprise that uses Centrex.
